KEYPORT DIVISION

NAVAL SEA SYSTEMS COMMAND WARFARE CENTERS

Keyport Division, one of two divisions of the Naval Undersea Warfare Center, has a proud history and tradition of dedicated technical expertise in the unique world of undersea warfare. Since 1914, Keyport has existed by federal authority to serve the public trust by providing test, training and evaluation services, life cycle support, and maintenance of Fleet material. Keyport Division operates and maintains unique national assets in our precision ranges and our technologically unique maintenance and repair facilities. Established in 1950s, our ranges were the first 3-D underwater tracking ranges in the world. Keyport's National Torpedo Depot is the Navy's major repair facility for torpedoes and has supported every variation of torpedo that has served the US Navy and many foreign navies. Keyport exists to effectively and efficiently utilize unique technical capabilities to meet the readiness needs of the major Fleet support activities in the Northwest Region and Pacific Fleet.

Mission

Provide advanced technical capabilities for test and evaluation, in-service engineering, maintenance and industrial base support, fleet material readiness, and obsolescence management for undersea warfare. Execute other responsibilities as assigned by the Commander, Naval Undersea Warfare Center.

Vision

Keyport's capabilities are proven through testing, training and evaluation, available through Life-Cycle Systems Supportability, and sustained through Fleet Material Readiness. Our vision is to be the Center for Integrated Undersea Warfare Systems Dependability, Integrated Mine and Undersea Warfare Supportability, Undersea Vehicle Maintenance and Engineering.

Technical Capabilities

- Pacific USW T&E Range and Test Facility Operations
- Independent USW Systems Test and Evaluation Experimentation
- USW Weapons and Vehicles Range and Environmental Test Systems
- Torpedo and Unmanned Undersea Vehicle Maintenance and Repair
- Obsolescence Management for Undersea Warfare Systems
- Undersea Warfare Systems Material Depot
- Torpedo and Unmanned Undersea Vehicles ISE and ILS
- Submarine USW Systems ISE and ILS
- Carrier USW Systems
- Fleet Training and Training Management Systems

Major Facilities

- Pacific Undersea Warfare Test & Evaluation Range and Test Facility Operations Complex
- Independent Undersea Warfare Systems Test & Evaluation and Experimentation Complex
- Torpedo and Unmanned Undersea Vehicle Maintenance & Repair Complex
- Undersea Warfare Obsolescence Engineering/Custom Engineered Solutions Complex
- Submarine Undersea Warfare Systems In-service Engineering and Integrated Logistics Support Complex
